## EXTENSION OF TERM

NOTE: "Extension of Time in Patent Cases (Supplement Amendments) — If a timely and complete response has been filed after a Non-Final Office Action, an extension of time is not required to permit filing and/or entry of an additional amendment after expiration of the shortened statutory period.

If a timely response has been filed after a Final Office Action, an extension of time is required to permit filing and/or entry of a Notice of Appeal or filing and/or entry of an additional amendment after expiration of the shortened statutory period unless the timely-filed response placed the application in condition for allowance. Of course, if a Notice of Appeal has been filed within the shortened statutory period, the period has ceased to run." Notice of December 10, 1985 (1061 O.G. 34-35).

NOTE: See 37 C.F.R. § 1.645 for extensions of time in interference proceedings, and 37 C.F.R. § 1.550(c) for extensions of time in reexamination proceedings.

NOTE: 37 C.F.R. § 1.704(b) "...an applicant shall be deemed to have failed to engage in reasonable efforts to conclude processing or examination of an application for the cumulative total of any periods of time in excess of three months that are taken to reply to any notice or action by the Office making any rejection, objection, argument, or other request, measuring such three-month period from the date the notice or action was mailed or given to the applicant, in which case the period of adjustment set forth in § 1.703 shall be reduced by the number of days, if any, beginning on the day after the date that is three months after the date of mailing or transmission of the Office communication notifying the applicant of the rejection, objection, argument, or other request and ending on the date the reply was filed. The period, or shortened statutory period, for reply that is set in the Office action or notice has no effect on the three-month period set forth in this paragraph."

**AMENDMENT BEFORE ACTION**

Dear Honorable Commissioner:

The applicants in the above-referenced patent application are desirous of making certain amendments to the application before action thereon. Since the amendments are extensive, a substitute specification is being submitted at this time. In this last regard, both a clean version and a marked up version of the substitute specification is being submitted as per current 37 C.F.R. 1.125. Further, a Statement that Substitute Specification Contains No New Matter is also being submitted with this amendment.

It is believed this Amendment before Action is needed for proper disclosure or protection of the invention. If, after a review of this Amendment Before Action, issues

remain which may be resolved by a telephone interview, the U.S. Patent Examiner is cordially invited to contact the Applicants' undersigned attorney.

Further, the U.S. Patent Examiner is respectfully reminded that a Petition to Make Special based on Health has been filed in this application and to the best of Applicants' knowledge and belief no decision has been made with regard to this Petition as of this writing. A copy of this Petition is further attached herewith.
